Director's Note

Dear Caregivers and Educators,

Summer is always my favorite time of year as Summer Arts Camp fills the building with enthusiastic young artists. Summer Arts Camp at the Minnetonka Center for the Arts (MCFTA) provides a unique opportunity for children to experience a professional art studio environment and learn from working artists.

The visual arts play an important role in child development, building character as well as skills. While campers experiment with new techniques and materials, they are exercising problem-solving skills, developing fine motor abilities and gaining confidence in their own talents and abilities that will spill over into schoolwork and other endeavors.

Running for 11 consecutive weeks from June through August, the Minnetonka Center for the Arts Summer Arts Camp surpasses all other programs in the number of options, scope of art forms taught and scheduling flexibility. With weekly camps for ages 7 to 15, and combinable daily options for ages 5 to 6, our camps can be easily slotted in with other activities to create an inspiring and educational summer experience, beginning to end.

The value of Summer Arts Camp lies in the quality of the art projects and the credentials of our Artist-Instructors. Our mission is to deliver visual arts education to the broadest possible audience, so we work hard to keep our per-hour price as low as possible and make scholarships available. Contact the Registrar if you need more information and be sure to register early! Many classes fill quickly and we hate to disappoint!

Best wishes for a creative summer!

Sincerely,

Roxanne L. Heaton, Executive Director

NEW!

Kayla McDaniels (D) is an artist, photo stylist, and teaching artist based in Minneapolis. She graduated from the University of Minnesota-Twin Cities in 2014 with a B.A. of Fine Arts. Her artwork is inspired by nature, vintage wares, and travel. Kayla uses her observations from nature as a launching point for her paintings, illustrations, and surface pattern design. She specializes in teaching Nordic hand crafts, drawing, and illustration. Her work can be viewed at kaylamcdaniels.com.

I love working with kids because they have an imagination without limits. I love the way they see the world. It is rewarding to see their self-confidence grow when they see the results of their own hands *— creating something tangible is* powerful.

~Molly Nebel

Molly Nebel (A, B, C) received her B.A. in Art Education from Bethel University. This is Molly's sixth year teaching art at Chaska Elementary School and seventh with Summer Arts Camp. A patient, joyful and open-minded teacher, Molly loves the small class sizes of camp and the personal attention and support she's able to give to each student.

Diane Petron (D) has a B.A. in Music Education from the College of St. Benedict. An experienced teacher, Diane brings a youthful energy to her classes that children recognize and enjoy. Diane has been with the Minnetonka Center for the Arts for more than 20 years, teaching adults and children on-site and through its outreach programs.

Frank Picos (C, D) received an A.A.S in Construction Technology from New York City Community College. Frank specializes in stone carving and bronze casting and has worked as a Sculpture Studio Assistant and Artist-Instructor for many years. Teaching the rare art of stone carving to children is something he looks forward to all year.

Jenny Stice (A, B, C, D) received her B.A. in Sculpture from Minneapolis College of Art and Design. She is in the process of gaining her K-12 Visual Arts teaching license and Master's certification from Augsburg College. Jenny is a fiber artist who recently has been exploring the use of embroidery to translate her drawings into a new medium. As a teaching artist, she has been sharing her enthusiasm for art with students pre-K to adult for the last 10 years.

Molly Uravitch (A, B, C, D) has an M.F.A. from Southern Illinois University and a B.F.A. from the College for Creative Studies Center for Art and Design. She has been a ceramics instructor since 2001, bringing a wealth of clay artistry and teaching experience to the classroom for both children and adults.

I think art is crucial for students at a young age. It helps develop fine motor skills, creativity, and problem solving. It is also a great outlet for their feelings even if they don't always realize it.

~Jessica Williams

Jessica Williams (C) received her B.A. in Art Education from Gustavus Adolphus College. She is an art teacher in the Wayzata Public School District and has been working with children for more than eight years.
